

# KytoCel GELLING FIBRE DRESSING

KytoCel is a highly absorbent, conformable, gelling dressing composed of natural, biodegradable, acylated chitosan fibres that give the dressing many valuable features:

- HIGHLY ABSORBENT – unique chitosan dressing fibres, bond with wound exudate.
- ANTIMICROBIAL – bacteriostatic and fungistatic.
- HAEMOSTATIC – ability to stop wound bleeding.
- IS NON-TOXIC.

- IS ABSORPTIVE.
- BIOCOMPATIBLE and BIODEGRADABLE.
- CHOICE – presented in multiple sizes.
- HIGH WET STRENGTH – allowing one-piece dressing removal that does not leave behind dressing fibres or residue.
